

Gynaecologist

Dr. Koufomichail Vasileios, MD, MSc

Reproductive Medicine – Aesthetic Gynecology

Dr. Koufomichail Vasileios was born and raised in Athens, Greece. He continued his studies at one of the best English-speaking Universities "SEMMELWEIS UNIVERSITY OF MEDICINE" where he graduated with a grade of "excellent". He worked in the Department of General Surgery at "Amalia Fleming" and "Sotiria" hospitals.

He then successfully completed the specialty of Gynecology-Obstetrics at "Elena Venizelos" General Hospital of Obstetrics, gaining at the same time great experience in Urogynaecology and more specifically in treatments related to urological diseases and gynecological interventions in general.

In Urogynaecology he was trained in Liège, Belgium, under Prof. De Leval, in Lyon, France, under Prof. Mellier, in Clermont Ferrand, France, under Prof. Zackthan. He holds a postgraduate degree in Reproductive & Regenerative Medicine from the University of Athens.

Until January 2021, he led the Department of Urodynamic Study and Rehabilitation of Pelvic Floor Disorders at the IASO Maternity Hospital. He was also a member of the IASO endoscopic team performing dozens of laparoscopic and hysteroscopic procedures.

Dr. Koufomichail has been working for ten years as a key member of the Embryogenesis Assisted Reproduction Center, participating in over 20,000 cycles of IVF, and has been thoroughly involved in the nerve-racking field of male infertility.

Since February 2021, he leads the Department of Urogynaecology and Aesthetic Gynecology of the YGEIA GROUP, "MITERA" Obstetrics and Gynecology.

At the beginning of 2022, he becomes a shareholder and co-founder of YGEIA IVF EMBRYOGENESIS, one of the largest and most modern assisted reproduction units in Greece.

Dr. Koufomichail is a member of the Medical Association of Athens and the Hellenic Society of Gynaecological Endoscopy.

He is active by participating as a speaker in lectures and medical conferences at national and international level related to Assisted Reproduction, Endoscopic Surgery and Urogynaecology.
